Material: Bamboo

Handle with care, avoid direct exposure to rain and water.

Daily exposure to intense ultraviolet radiation from sunlight will also deteriorate the bamboo material over time.

During winter time, the best is to store in a dry and well-ventilated place.

Over time mold can develop on the surface-clean with a damp, soft cloth.

Color may change over time and become grey, to minimize this regularly clean with a damp, soft cloth and rub in with bamboo furniture oil.
